At One Up / Four Down, we're committed to give you the best motorcycling performance products available. Whether you're a weekend warrior, a daily urban rider or a professional athlete, we are working hard to run the extra mile and reach ever higher goals. To launch innovative accessories and bike parts that can make you a better rider.

Ever since our team has entered the world of two wheels' sports and motorbike parts, we strive to take stock of our decade-old professional experience in the development of safety and race oriented products. That's why we're sure we can improve your ride: it doesn't always have to be the same.

We are redrawing the boundaries of performance in every single product we bring to you. On any given Sunday, on your daily road, and throughout your urban commuting, we will make sure you can safely go further, and on the track, faster. You will not be alone when you raise your hand for that sweet sense of a new conquest.

4

1. Highly breathable inner mesh fabric.
2. EN17902-3 certification as Protective Clothing.
3. Pockets with rubber-covered zippers for waterproof closures
4. Left sleeve outer pocket for easy access to that main object/card/keychain

## PRODUCT FEATURES

The 1UP4D Medusa is the brand's "all-rounder": a seriously versatile urban jacket, offered in a wider range of colour options, which actually makes it a casual, cool and hugely comfortable garment. It's made of a "touch-friendly" soft polyester, with highly reflective printed logos, adjustable sleeve zippers

and straps, removable & washable hood and inner protections, and an interior breathable mesh, just right for the rider's milder days. Try one, and be sure to feel the wish to keep it. The available colours are a 'spot-on' match with the Medusa Gloves (p. 11) and Helmet (p.17) for that final "full kit" touch.

1. Highly reflective stitched elements and printed logos.
2. All-weather "Max-Dura 600D Polyester" with high resistance.
3. Inner pockets on both the main jacket and the interior lining.
4. Upper arm adjustable straps with metal snap fasteners.

## PRODUCT FEATURES

The Python: the brand's commitment to a comfortable fit but with the tightness of a high level of protection. The feeling of readiness is essential in every ride, and this jacket is just the right piece of gear to let that sensation wrap you. Plus, it comes packed with an array of technical features which will

make you think twice when considering similar products: a highly reflective rear band, coupled with luminous logos, adjustable sleeves and upper arm straps, YKK solid and efficient zippers and a pair of outside pockets to keep track of your everyday essentials. Check above for all the colour options available.

2. Airflow Cooling System with 4 front and 3 rear air openings.
3. Upper arm adjustable straps with metal snap fasteners.
4. Removable Thermal lining for maximum comfort choices.

## PRODUCT FEATURES

The 1UP4D Sphinx urban jacket was developed with a mixed use in mind, aimed to face intermediate to severe weather conditions during the ride. Its tight but comfortable fit, with a wide array of adjustable straps and zippers are sure to provide you with a higher level of protection, especially focused

on the elbows, shoulders and back area, while having extra padding elements along the chest and abdominal zones. Both the removable inner lining as well as the jacket itself are equipped with interior pockets to help you carry keys, wallet, smartphone & the everyday essentials.

1. Extra paddings and reinforced leather on the fingers' outer areas.
2. Knuckle protection made from a crafted mix of rubber and leather.
3. Silicone printing on the gloves' palms and additional paddings.
3. Heavy duty velcro closures on the wrist for a tighter fit (ATHENA Long).

## PRODUCT FEATURES

The ATHENA gloves are the brand's flagship product when it comes to protecting your hands. Made from a resistant but extremely soft leather, it's a waterproof glove, thermally insulated, ready to take to the road. Several layers of protection come into action, to which we've added extra padding on the upper

part of the fingers, dual Velcro closure (ATHENA Long only) and an intricate mix of ergonomic support areas and high-grip textures on the gloves' palms. Keeping within the EN13594 certification standard, this sturdy glove is great for both your daily commute as well as the weekend tour. Week-long trip? Even better!

3. "One pull" safety buckle, easy to fit and release.
4. Carefully stitched padding, highly comfortable and breathable.

## PRODUCT FEATURES

At 1UP4D, the Medusa is a growing product line, in which we are also introducing an urban motorcycling helmet. Offering the all round practicality of an open-face model, here's a product thoroughly engineered to meet the newest and upcoming ECE 22.06 certification standards, making it the wisest

market choice for a safety regulation soon to become mandatory all across Europe. The Medusa comes equipped with an inner sun visor – controllable on the shell's left side – a longer and aerodynamic exterior visor, independent front side vents, rear air scoops and available in a wide range of head sizes.

## PRODUCT FEATURES

It's no surprise that the way you ride is linked to how good you feel with your gear on! For this reason, 1UP4D has carefully developed its first range of Off-Road Jerseys and Pants. These come packed with a host of added comfort details and safety features, so that riding

comes as natural as breathing. A soft, breathable and highly elastic fabric on the Jersey is matched by truly technical pants: adjustable waist, heavy duty YKK zipper, Kevlar® reinforced inner pads over the knee areas and several zones with stretchable and resistant fabric.

2. Silicone printing on the gloves' palms and fingers for added grip, coupled with a thinly padded foam layer for extra comfort.
3. Heavy duty Velcro closure on the wrist for a tight fit, matched with a breathable upper fabric.

## PRODUCT FEATURES

Focus on what really matters: the track ahead. Taking proper control of your motorbike is a key factor to boost your confidence, raising and performance to another level. The KRONOS riding gloves enhance all these skills through

an array of technical features, conceived to give you the best compromise between feel, grip and protection. These are available in all of the usual sizes, and can be matched to the KRONOS Jerseys & Pants colours.

## BOOT'S HIGHLIGHTS

1

2

3

4

1. Four-point closing buckles, highly adjustable, for an anatomical fit on your lower legs, ankles and feet.
2. Replaceable buckles, made from durable Nylon polymer, available as an after-market accessory.
3. Different rubber sole textures promote an optimized adherence to the motorbike's footpegs.
4. Heavy-duty Velcro areas on the boots' upper part, featuring high-resistant rubber flaps.

## PRODUCT FEATURES

Motocross & Enduro boots are one of the essential gear pieces to engage in our favourite sports. That's why 1UP4D has worked to develop a product with functionality, design and utter safety in mind: all of it presented at a competitive market price. On the Kronos boots, you'll find a carefully blended

mix of racing colours, which are sure to highlight your pants, jersey and gloves, and visually match your bike and helmet liveries. This new boot will allow for a greater range of movements while giving the rider the adequate levels of confidence and protection: flexion, resistance and performance, at your feet.

# KRONOS

OFF-ROAD RIDING GOGGLES

MATTE BLACK

MATTE RED

MATTE FLUO

## GOGGLE'S HIGHLIGHTS

Frame in high resistance & flexible polymer

Pre-installed tear-off posts

Wide lens with great peripheral view

Twin buckle for optimal strap adjustment

Silicon coating on the strap's inner side for maximum helmet grip

Third tear-off post on adjustable clip

REVO premium lens with scratch resistant & anti-fog coatings

Double foam layer for increased performance & tight sealing

## PRODUCT FEATURES

The KRONOS goggles are your ideal companion to hit the tracks, at the best affordable price. In compliance with the CE EN 1938:2010 standards, its REVO anti-scratch and anti-fog lens coating are a key element to keep you focused, added by a wide peripheral view and a high comfort level ensured by its double

layer of foam: breathable but tightly sealed to your face. When placed over the helmet, you'll notice the super grip of the silicon coating on the inner side of the woven strap, and feel the flexibility and resistance of its polymer frame. Please check all the optional coloured lenses available.

# NYX

OFF-ROAD ESSENTIALS

## NYX RAINCOAT'S HIGHLIGHTS

BLACK

RED

YELLOW

ORANGE

GREEN

BLUE

FLUO

The list of colours above refers to the coat's wrists, neck and waist linings, the 1UP4D's printed logos and the fabric & mesh seen here on the torso sides and the lower areas of the arms.

## PRODUCT FEATURES

The right raincoat makes the difference when that misty morning settles in. 1UP4D's raincoat is a flexible and extra-lightweight polyester garment, available in a wide range of colours: it features a heavy duty Velcro and a solid YKK zipper, making it an efficient water repellent closure. Under your arms, a breathable mesh will help you cool your body temperature, which, combined with your KRONOS jersey will ease your ride and let you focus on what matters most: the "off-road" ahead.

## NYX BACKPACK HIGHLIGHTS

Ergonomical straps with multiple adjustments in shoulder length, central buckle height and torso perimeter

## NYX WAISTPACK

High-quality polyester fabric, with a multi-purpose main pouches, waterproof sturdy zippers and a proven comfortable mesh along the inner area in direct contact with the rider's body. Bottle included, with aprox. 500 ml capacity

## PRODUCT FEATURES

We all have our essentials, that "must-bring" set of tools we rely on; so it's a wise decision to choose the best available gear in which to pack them. 1UP4D's backpack and waistpack were designed to ergonomically fit you, with multiple adjustable straps and, on the first one, a central "chest buckle" for that utter feeling of confidence. Boasting waterproof zippers on all pockets & side mesh folders for bottles, the backpack is also a versatile piece of gear, with a padded inner protection and Velcro closure to carry your tablet or laptop.

## PRODUCT FEATURES

A confident and decisive ride comes also with the precision with which you take control of the bike. Hence, the 1UP4D STRATON grips are made from a dual compound polymer, for utmost adherence and a highly durable usage. A shore of 25 SA in the central area provides a sticky and effective touch; a shore of 65 SA on the main compound ensures an easier fit on the handlebar and a sturdy resistance against possible crashes.

Its half-waffle design on the fingers' area is bound to give added grip, even on muddy conditions. Available in 11 colour combinations, the STRATON grips are sold in pairs of Left + Right handlebar ends, and are compatible with right hand twist throttle motorbikes.

## STRATON BIKE STAND

FLUO / BLACK

BLUE / BLACK

RED / BLACK

ORANGE / BLACK

FULL BLACK

## PRODUCT FEATURES

Whether you prefer your dirt bike with a kick-stand or not, we know that a bike stand makes workshop and pit maintenance a much, much easier task! So, in comes 1UP4D's Straton stand, a raisable and practical lift for your bike, able to support up to 150 kg weight, which will allow you all the fettling and fine-tuning, essential before or after the ride. Made from a resistant steel league, painted and coated against rust, the twin rubber mats on the upper surface will prevent the motorcycle from sliding or falling.
